

We hope you've had a good year & wish you all the best for 2023!

We've completed our first year in Sarasota & are loving it here!

Your paragraph text

Robert is fully immersed in the jazz community. He's played all kinds of venues including clubs, restaurants, church, retirement homes - even in a theater production. There is plenty of work here for pianists. He has also started collaborating with a friend in Italy on a new jazz course.

Cathy loves living on the ground floor and walking out into the garden or pool deck. Mornings start with a walk around the lake (photo below) to check out the visiting ducks, tropical birds, neighbors & their dogs. She's working on art quilts & continues her part-time career coaching online for the Earth Institute.

We are enjoying spending more time outside - in a green, lush environment.

Cathy & Robert
